Proclamation

CONSTITUTION WEEK

WHEREAS: The Constitution of the United States of America, the guardian of our liberties, embodies the principles of limited government in a Republic dedicated to rule by law; and

WHEREAS: September 17, 2024, marks the two hundred and thirty-seventh anniversary of the drafting of the Constitution of the United States of America by the Constitutional Convention; and

WHEREAS: It is fitting and proper to accord official recognition to this magnificent document and its memorable anniversary and to the patriotic celebrations which will commemorate the occasion; and

WHEREAS: Public Law 915 guarantees the issuing of a proclamation each year by the President of the United States of America designating September 17 through September 23 as Constitution Week,

NOW, THEREFORE, I, Brandon Rein, by virtue of the authority vested in me as Mayor of the City of Abilene, Kansas, do hereby proclaim the week of September 17 through September 23 as

CONSTITUTION WEEK

AND ask our citizens to reaffirm the ideals the Framers of the Constitution had in 1787 by vigilantly protecting the freedoms guaranteed to us through this guardian of our liberties.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Abilene, Kansas, to be affixed this 9th day of September 2024.

City Commission Meeting Date: Monday, September 9, 2024

Session: Regular Meeting

Topic: AWOS

Department: Finance/Airport

Staff Contact: Leann Johnson, Finance Director

Background:

July 1, 2024, the City of Abilene was awarded Grant Agreement No. 447-24 for Project No. AV-2025-02 through KDOT's Division of Aviation to replace the Automated Weather Observation System (AWOS) III.

The Airport Manager has received two bids (attached) for the replacement of the equipment from the only two certified vendors for this specialized equipment:
\$122,284.00 DBT Transportation Services, LLC
\$96,734.82 Mesotech

Due to the history and current client base (a vast majority of airports use DBT upwards of 90%), DBT is most likely to be around to provide replacement parts in the event of equipment failure or damage. It is the recommendation of the Airport Manager and Airport Engineer to award the bid to DBT Transportation Services.

Recommendation:

Approve awarding a contract to DBT Transportation Services, LLC in the amount of \$122,284.00 for the replacement of the AWOS III at the airport.

Fiscal Note:

\$110,055.60 KDOT: 90% of Participating Costs of the Project, not to exceed \$110,061.00.
\$12,228.40 City's Cost Share: 10% of Participating Costs until the 90% funding limit is reached

EXECUTIVE SUMMARY

Design. Build. Install. Support.

Mesotech International Delivers Aviation Weather Solutions — Start to Finish.

Mesotech International, Inc. is based in Sacramento, CA, and has designed, manufactured, and installed meteorological monitoring systems for over 30 years. Mesotech's flagship product is Airport Weather Advisor®, an FAA-certified and ICAO-compliant Automated Weather Observing System (AWOS). Airport Weather Advisor® enhances flight safety for civil and military aviation through accurate, reliable automated weather reports delivered to pilots in the air and worldwide via Mesotech's AWOS Live cloud platform. Mesotech is a US Air Force prime contractor, supporting 300+ military sites worldwide, and was awarded Region IX Small Business Prime Contractor of the Year in 2014.

OUR STORY

Based in Sacramento, California, and over 30 years in the making, our company has an international client base with thousands of weather stations around the world and still retains the personal touch that built our reputation.

Our weather systems are on all seven continents including Antarctica and have been in continuous use by the US Air Force since 2001.

Our Airport Weather Advisor® system is FAA Type Certified and available in ICAO and WMO-compliant versions making it ideal for airports worldwide, both military and civilian airports.

What Separates Us from the Rest

Our Engineering

A cloud-connect AWOS - All systems are connected to the cloud through AWOS Live to equip end-users and our support staff with the data needed to deliver unbeatable system resilience and uptime.

Mesotech has over 25 years of experience, and our equipment is built to last no matter what the environmental demands are. However, we understand the costs of running a business, and we're here to work with you. Our engineers have extensive experience in integrating legacy equipment and machines into the Mesotech architecture and they'll help utilize existing infrastructure and systems to save you time and money. If you need a workaround, our engineers will find you a solution.

Our Support Team

It's the personal touch that matters and that's where we here at Mesotech outshine all the rest. Customer service matters to us and we deliver in a way that the larger companies can only dream of. Our help desk is fully staffed by engineers and technicians who provide daily support for over 300 military airfields around the globe. When you call us, we answer, we listen, and we act fast producing solutions quickly and efficiently.

"Tony and Steve are very knowledgeable and pleasant to talk to. Customer service 1000/10" - USAF Feedback

"Mesotech's logistics & technical support have been the best I've experienced in 22 years as a Radar
